## **KNS2436FC - Nestable Wire Deck Material Handling Cart**

24" x 36" nestable transport cart designed to move bulky and heavy products from the sales floor outside to a customer's car. Wire deck does not retain water and looks cleaner longer. Rear brakes allow cart to be safely unloaded without risk of rolling away. Extremely tight nesting distance allows for the ability to store multiples of carts without taking up sales floor space. Wire basket allows for holding small items, and two built-in purse/bag hooks help provide additional capacity.

### **Product Specifications**

Bottom Tray Dimensions: 23.5" x 35"

Top Basket Capacity: 936 cu.in.

Nesting Distance: 7.5"

Length: 36"

Width: 26"
